REPORT ON THE ACTIVITIES OF THE FACULTY OF ECONOMICS
for the 2024-2025 academic year

Approved at a meeting of the Council
of the Faculty of Economics
Protocol No. 12 of 24.06. 2025

Acting Dean of the Faculty of Economics,
doctor, university lecturer
Todorici L.P.

Comrat 2025

1. Organizational base of the structural division of the faculty

a) Basic information (brief history: formation/authorization, accreditation, evolution, etc.)

The Faculty of Economics is a stable and balanced developing structural unit of Comrat State University, conducting diverse applied scientific research and expert developments of highly qualified teachers and practicing specialists in the field of economics and pedagogy. The faculty has been functioning since 1991, from the date of the establishment of the university itself.

The strategic goal of the faculty is to meet the growing demand of the national economy for the training of modern accountants and financiers, bank employees, professional managers, teachers of mathematics and computer science, who possess knowledge and the ability to effectively apply it in the process of forming and implementing strategies at various levels, creating mechanisms and implementing technologies for sustainable socio-economic development of the country, regions and enterprises.

The Faculty of Economics, being an integral part of KSU, actively participates in the implementation of the Bologna process, providing conditions for the transition to a three-stage higher education (I cycle - licentiate, II cycle - master's degree), participates in the preparation and implementation of the Moldovan credit system, takes part in international cooperation. The faculty carries out ongoing work in the context of improving the quality of education, creating transparency in the educational process, increasing the attractiveness of the faculty and KSU as a whole for all domestic and foreign stakeholders and partners.

The faculty structure includes three departments: the Department of Economics, the Department of Accounting and Finance, and the Department of Information Technologies, Mathematics and Physics.

The faculty provides an effective solution to educational, teaching and pedagogical, organizational and methodological, scientific research and information and analytical tasks to improve the qualifications and train specialists in accordance with state educational standards of higher professional education based on an innovative educational environment, ensuring multi-level training of highly qualified personnel of a new formation in the field of economics, education, and IT technologies.

Personnel training is provided by the following educational programs.

Department of Economics:

- General direction 041 "Economic Sciences" in specialties of the 1st cycle of study
    - 0413.1 Business and Management
    - 0414.1. Marketing and logistics
    General direction 101 "Public services" in the 1st cycle specialty 1013.1 "Hotel services, tourism and leisure".
- II cycle of training – 041 "Business Administration", training of students in this area is carried out within the framework of full-time education.

Department of Accounting and Finance:

- I cycle of training – 0411.1 Accounting, 0412.1 Finance and banking. Students are trained in full-time and part-time forms of study.

- II cycle of training 041 "Accounting and auditing in economic sectors", 041 "Corporate finance". Students are trained on a full-time basis.

Department of Information Technologies, Mathematics and Physics:

- I cycle of study –0114.02 Computer Science, 0114.02/0114.01 Computer Science and Mathematics, 0613.4 Computer Science (exact sciences)

- II cycle of training – 011 Didactics of informatics, 011 Didactics of mathematics

The importance of the Faculty of Economics is determined by the demand for graduates, both in the economy of the ATU Gagauzia and the country as a whole.

The faculty, as a creative community, is united by a common vision of the objective need for market reforms in the Republic of Moldova (including the ATU Gagauzia (Gagauz Yeri)), solving specific problems of social and economic development of economic entities, the ATU Gagauzia, and the national economy as a whole.

In 2025, the Faculty of Economics successfully passed accreditation for the 1st cycle of education under the program0411.1 Accounting, 0412.1 Finance and Banking, 0413.1 Business and Management.

b) The mission of the faculty in accordance with the licentiate and master's degree programs (full-time and part-time education);

According to the Strategic Development Plan of the Faculty of Economics for 2022-2027.Mission of the Faculty of Economicsis determined by the strategy of innovative regional development and consists of training highly qualified and competitive specialists in economic sciences, pedagogical sciences (computer science and mathematics) and in the field of IT in accordance with the requirements of modern educational standards, the requirements of the modern labor market and the needs of the national economy.

c) The objectives of the faculty in accordance with the licentiate and master's degree programs (full-time and part-time education).

Vision of the Faculty of Economics– is a sustainable and balanced developing structural unit of Comrat State University, conducting diverse applied scientific research and expert developments of highly qualified teachers and practicing specialists in the field of economics and pedagogy.

Strategic goal of the faculty– meeting the growing demand of the national economy for the training of modern accountants and financiers, bank employees, professional managers, teachers of mathematics and computer science, who possess knowledge and the ability to effectively apply it in the process of forming and implementing strategies at various levels, creating mechanisms and implementing technologies for sustainable socio-economic development of the country, regions and enterprises.

This goal can be achieved on the basis of:

- increasing the intellectual potential of the faculty and KSU, developing the research base of the faculty, and increasing the professionalism of the teaching staff;
- ensuring the quality of the educational process;
- implementation of innovative methods of organizing the educational process, application of progressive educational technologies;
- formation of cooperation with strategic partners;
- conducting scientific research and applied developments in various areas of the national economy and the regional economy, in the field of education and IT.

2. Implemented programs (qualitative and quantitative) and forms of organization
2.1 CycleI, higher education licentiate (Table 2.1)

Faculty of Economics for 2024-2025152 students graduated in the academic year, of which 123 students graduated with a license, or 42% of the total graduation (44 students in full-time education,59 students (correspondence course)

2.2 CycleII, higher education master's degree (Table 2.2);

Faculty of Economics, based on the results of the 2024-2025 academic year.29 students of the 2nd cycle of master's degree training graduated in the year. In total, the Faculty of Economics accounts for 38% of the total KSU graduation.

2.3 Continuous professional training (indicate the name of the program, year of approval, number of credits, certification form, number of students) (Table 2.3);

2.4 Other types of programs (if any).

The Faculty of Economics has developed and approved new curricula in accordance with the following reference documents: Education Code of the Republic of Moldova No. 152 of 17.07.2014, Framework Plan for Higher Education Licentiate (I Cycle), Master's Degree (II Cycle) and Integrated Learning PlanCadru No. 510 of 07.04.2025, Nomenclature of Directions of Professional Education and Specialties of Higher Education No. 482 of 28.06.2017. The curricula of the department apply an interdisciplinary teaching model based on the relationship between theoretical and practical training,

between current and continuous education, in order to ensure, on the one hand, education that meets the requirements and dynamics of the labor market, and on the other hand, excellent training supported by specialists in the field, social partners - students and employers. The curriculum contains all the necessary elements for training a specialist in the target area. The purpose of the educational program is to form a set of knowledge, skills and competencies necessary for a specialist to effectively professionally implement himself in the labor market. The distribution of educational units and their weight in the formative component of the curriculum allows achieving the planned completeness of the educational program. The curriculum complies with the National Qualifications Framework and the European Qualifications System.

When developing the curriculum, the qualitative and quantitative characteristics of the educational program in the specialty are determined, including: the volume parameters of the academic load as a whole, by years of study and by semesters; the list of academic disciplines, professional modules and their constituent elements (interdisciplinary courses, introductory and industrial practices); volume indicators of preparation and holding of the state final certification, the conditions for holding a demonstration exam in the structure of the procedures of the state final certification.

The curricula are periodically reviewed and updated to meet the dynamics of the university qualifications market, to meet the requirements of the beneficiaries of the training, on the initiative of the department, the Quality Commission, social partners - employers, beneficiaries - students. The assessment and modernization of the curricula is carried out on the basis of the Regulation on the development, approval and amendment of curricula.

New curricula are approved by the department protocol, passing the department's extract, the Department's Quality Commission to the Faculty Council, the Department of Quality Management and the Educational Process, and, finally, the Senate of KSU.

The need to adjust the approved curricula for specialties, replace outdated disciplines or introduce new disciplines is discussed and approved at a meeting of the department, then at a meeting of the Quality Commission, and is additionally approved by the Faculty Council. Modernization of curricula is approved by the Senate of KSU.

1. The department successfully conducted courses for continuous education of teaching staff – mathematics teachers.

2. The faculty of the department compiled new curricula and updated existing curricula, made FIȘA UNITĂȚII DE CURS to the curricula. These requirements are clear and understandable, and do not raise any questions.

3. The teachers participated in the exhibition held at the university level:
   ● Development of posters for the Exhibitionresearch projects of the faculty and students of the Economic and Agrarian faculties. The opening of the exhibition was timed to coincide with the Science Day "Ziua Mondială a Științei" and organized by D.Sc. (Econ.), Conf. Univ., Director of the InnoCenter of KSU Kuraksina S.S.

   The following works were presented at the exhibition from the ITMF Department:

   Tutunaru S. al., conf. univ. – "Aspects of virtual reality in the tourism industry";

   Popil G.P. univ. asst. – "Using GOOGLE COLAB for data analysis and visualization".

5. Lecturers of the ITMF Department provide consultations to the teaching staff of KSU on working on the Moodle platform.

6. The ITMF department cooperates fruitfully with Prof. Dr., AdrianAdăscăliței, Universitateatehnică "GheorgheAsachi", dinIași, România.

7. Teachers participate in external assessment workshops.

On September 27, 2024, the Department of Continuous Learning and Career Growth held a methodological training seminar on external assessment for employees of the departments of pedagogy, information technology, mathematics and physics, and Gagauz philology. The seminar participants received instructions, methodological materials, and jointly developed a program and training plan for the future accreditation of educational programs in advanced training courses. The seminar was attended by the head of the ITMF department Popil G.P. and Velikova T.G.Link to publication:https://formare.kdu.md/ru/item/179-seminar-metodologic-de-preg-tire-pentru-evaluare-extern-pentru-angaja-ii-catedrelor

8. Teachers constantly improve their qualifications and engage in self-education by attending courses, trainings, and webinars.

Velikova T.G. Webinar "Secrets of brilliant speeches: from developing the structure of the theoretical part to the design of the presentation", using the example of the methodological topic: "Lapbooking Technology"
as a multi-technological model of training", September 14, 2024, number of hours: 2, organizer: on-skills.ru
Velikova T.G. Kahoot webinar, 09/10/2024.
Velikova T.G. Participation in Duocon 2024, September 24, 2024
Velikova T.G. 09/20/2024 Webinar, Women In AI: Forging An Equitable Future, with Dr. Michelle Zhou.
Velikova T.G.ENCORE webinar week: From Open Educational Resources to Open Recognition, October 1-3, 2024.
Velikova T.G.Webinar "Go Hybrid with Chatbots!", October 30, 2024, Fachhochschule des Mittelstands (FHM), Germany.
Velikova T.G.Webinar "Neural networks in the work of a teacher"
Velikova T.G. 08.12.2024, number of hours: 2, organizer: on-skills.ru
Velikova T.G.Certificate for participation in the webinar "VR helmets in educational organizations: market review and teachers' experience", 10.22.2024.

9. Teachers organize events planned in the ITMF Department Plan.

10. The department's teachers are involved in the layout of conference materials.

All curricula are drawn up taking into account the modern requirements of the Framework Plan for obtaining higher education: I cycle - Licentiate, II cycle - Master's degree), comply with the European Qualifications System;

An important aspect of the innovative development of higher professional education, acting as practice-oriented training, is its integration with the production sphere. This is a factor in the adequacy of the results of the higher professional education system to the needs of production, the convergence of the personnel training process to the demands of various sectors of the economy and specific employers, and ensuring the connection of student training with future work at enterprises.

Constantly changing requirements of employers caused by the emergence of new production technologies require changes in the content of training in higher professional institutions. In this regard, the Department of Economics systematically conducts surveys with employers and students. Together with employers, a set of required professional competencies for the training of future specialists is developed and adjusted, new disciplines and programs for training students are introduced. All this has an impact on the system of practical training of students, and the introduction of modern educational and information technologies allows us to train competitive and sought-after specialists in the labor market.

2.4 Other types of programs (if any).
Within the framework of the "InnoStart4NEET" project, conditions were created to improve existing and create new social and labor services for young people with an emphasis on young people of the NEET category and socially vulnerable youth of the ATU Gagauzia. A new program was developed aimed at assisting with employment and career guidance of young people, implemented through the InnoCenter Innovation Incubator at Comrat State University.

Experts from InnoCenter at Comrat State University have developed a short-term training program to increase the motivation and ability of young people to integrate into the educational process or the labor market.

This Program contains 3 modules:
·   Career guidance (familiarization with the most popular and in-demand professions, testing for those wishing to make a decision when choosing a profession);
· Computer literacy (training in using Office programs, assistance in creating personal and work email, ability to use national platforms for job search, rules for email correspondence with a potential employer);

· Effective self-presentation (preparation of a personal package of documents, CV and motivation letter, training in self-presentation skills).

The faculty also operates the Research Center PROGRESS.

• The Center aims to make greater use of senior students in scientific research, including in the context of completing their master's and PhD theses.

• As part of their activities, the Center's employees may be reimbursed for transportation costs within the Republic of Moldova at the expense of the University.

•In its work, the Center can involve specialists and managers of enterprises and educational institutions of the region, the republic, as well as colleagues from abroad.

• The Center organizes and conducts the Annual Competition of Student Papers on Economics

• Fulfills orders of economic entities under the business contract system.

• Provides assistance in the context of the development of inter-university scientific cooperation

• Assists in organizing and holding conferences, round tables, and symposiums.

3. Internal quality assurance management system

3.1 Organization, implementation and effectiveness of the quality assurance system

The faculty operates**Advice**on quality, who is elected/re-elected and approved at a meeting of the faculty council. The composition of the Quality Council for the 2024-2025 academic year: Chairman - Dudoglo T.D., members of the council - Kara M.F., Sibova O.G.

During the 2024-2025 academic year, the Quality Council carried out its activities in accordance with the developed and approved plan. The plan was implemented in all areas. A program and corresponding plans for conducting internal audits were also developed and approved, which were carried out within the appropriate timeframes, the results of the internal audits were discussed at commission meetings and reported to the department management and the faculty, as well as to the faculty management. Corrective action plans and correction measures were also drawn up, and discrepancies were eliminated.

As part of ensuring the quality of education at KSU, educational activities and their monitoring are carried out in accordance with the Quality Regulation, which provides for an annual assessment of all types of work, including the implementation and updating of educational programs.

The Faculty of Economics conducts: internal audit, self-assessment, self-assessment of educational programs, SWOT analysis, etc. Internal quality control of process and resource management and their continuous improvement is carried out on an ongoing basis every year.

In 2023-2024, open classes were held according to the approved schedule.

The faculty's teaching staff takes part in all events related to the educational process. To assess the quality of graduates, employers are invited to the State Examination Commission, are internship supervisors, are invited to conduct guest lectures or training sessions, etc.

- Analysis of the work performed to ensure quality at the department and the results of internal audits.

The Quality Council carries out work in the following areas:

✓ monitor the implementation of QMS decisions in the State Institution;

✓ develop and implement documents (curriculums, examination tickets, etc.) in accordance with established requirements;

✓ promptly familiarize the teaching staff with newly introduced or updated documents;

✓ organize and conduct a survey at the Faculty of Economics

✓ check the academic journals of the Faculty of Economics (for the presence of completed journals and certification);

✓ monitor the quality of educational processes at the department level;

✓ conduct an audit for the availability of examination tickets and dates of their use;

✓ monitor curricula in accordance with the teaching load of the faculty;

✓ conduct consumer monitoring;

✓ conduct an audit of the availability of disciplines on the platformMOODLE;

✓   develop plans and goals in the area of quality to improve the level of the educational process and the satisfaction of students and postgraduates.

During the internal audits conducted at the department, mostly minor inconsistencies were identified. Among the violations identified, the following are the most common:

- Academic work journals are not completed in a timely manner;
- the intensity of assessments is insignificant.

The nature of the non-conformities identified during the internal audit is mostly minor. All non-conformities recorded by internal auditors were entered into the minutes and were also taken into account and corrected.

Quality control of teaching disciplines is carried out by mutual visits to classes according to the approved schedule and is recorded in the corresponding mutual visit log. The faculty of the department visits the teachers' classes, evaluates the classes held and records the results of the check in the log. Electronic educational resources are actively used in classes.

During the 2024-2025 academic year, group curators regularly (once every two weeks according to the schedule) held curatorial hours on a specific topic according to the developed plan. Issues of attendance and academic performance, relationships between students, between students and teachers, compliance with sanitary standards, and future professions were also considered.

The Faculty Quality Council noted that during the audit, the staff demonstrated openness, interest in objective audit results and contributed to the achievement of the audit objective and the full implementation of the audit.

In order to improve the educational process at the faculty, during the month (March) of the second semester of the 2024-2025 academic year, an anonymous survey "Teacher through the eyes of students" was conducted in the specialties of the Faculty of Economics. Students assessed the work of the faculty of the department for each teacher separately.

Also, in June 2024, the Quality Council conducted a survey "On the quality of organization and internship of students of the Faculty of Economics of KSU", "On the level of preparedness of students of the Faculty of Economics of KSU for professional activities".

The Department of Quality Management and Educational Process has developed a questionnaire to assess the quality of electronic courses, the questionnaire is available on MOODLE. Students fill it out upon completion of the course.

At the end of the first semester of the current academic year, we analyzed the questionnaires on MOODLE of the first-cycle students. Full-time and part-time students participated in the survey regarding the quality of education and satisfaction with the organization of the learning process. Many questions in the questionnaire touched upon important aspects of the level of organization of education. According to the majority of the students surveyed, the course content corresponds to modern trends. However, students noted some difficulties that arose during the study of the courses: solving tests with a time limit; Internet failures when accessing the course.

According to students, 90% of the course content corresponds to modern trends. However, students note some difficulties that arose during the study of the courses: solving tests with a time limit; solving problems; developing business concepts; Internet failures when accessing the course.

84% of students agreed that they were satisfied with the course assessment tools and procedures. 85% of students noted that they had assistance from teachers during the course. 92% of students were satisfied with the convenience and good navigation of the courses. Students noted internet failures, which complicated the solution of tests.

Based on the results of the audit in the 2024-2025 academic year, the following conclusions can be made: in general, the work of the Faculty of Economics complies with the requirements of the ISO standard and planned activities, reporting documentation is presented, the audit is effective, the quality of the department is effective and maintained in working order, there are opportunities to improve the quality of education.

In 2023-2024, the Faculty of Economics carried out outreach work to attract applicants. Namely, KSU itself held career guidance events with the invitation of graduating students of lyceums, bankers, practicing accountants: Quest "Journey to the Country of Finance and Accounting" - April 18, 2025

Off-site meetings with 12th grade lyceum students from the ATU of Gagauzia, Taraclia, Bessarabka, Cahul, Hincesti.

The work of the research centers contributes to the development of the potential of the Faculty of Economics:

1) Research Center "Progress" under the direction of Dudoglo T.D.
2) Innovative incubator INNOCENTER, under the leadership of S.S. Kuraksina

The methodological work carried out at the Department of Economics is divided into:

✔ "educational and methodological work";

✔ "organizational and methodological work";

✔ "scientific and methodological work";

✔ "expert and methodological work".

In the process of teaching, the faculty of the Faculty of Economics pays special attention to the following educational technologies: personally-oriented technologies in teaching the discipline and information and analytical support of the educational process and quality management of education of students and master's students.All teaching staff actively use the MOODLE electronic platform in the educational process, see Table 3.0 in the appendix.

The conducted analysis of the functioning of the Quality Council at the faculty shows that all processes within the framework of the process model of the QMS are implemented. The Quality Council ensures the quality of the educational process in accordance with the requirements and expectations of various consumer groups: the state, employers, students. The Faculty of Economics ensures its competitiveness, develops a quality management system in accordance with the international standard. In order to ensure the quality of the implementation of educational programs, the faculty implements an external audit procedure.

3.2 Forms, methods and ways of organizing teaching/learning aimed at improving the quality of the educational process.

In the 2024-2025 academic year, the teachers of the Faculty of Economics worked intensively to improve the forms and methods of teaching and learning technology of disciplinary courses. The teachers of the faculty use innovative teaching methods that are used both for open classes and for everyday ones. They include:

1. Lectures-presentations;
2. Lectures with video;
3. Practical classes with analysis of the video materials used on the topic;
4. Binary lectures;
5. Classes using modern innovative technologies.

Individual work with students at the Department of Economics is carried out in two directions:

1. Organizing work with students who strive for a more in-depth study of disciplines;
2. Organizing work with students who have problems with academic performance.

One of the types of individual work is creative activity of students. In the process of performing a creative task, students prepare messages, reports, presentations, write and defend abstracts on the topics studied. Assignments for individual work are posted by teachers on the Moodle platform.

When working with unsuccessful students, types of tasks are developed that maximally stimulate the activity of work, awakening the need for cognitive activity. In working with them, it is important to use such methods that are accessible and interesting to them. To organize the learning process with such students, the department staff constantly selects the content and forms of presentation of educational material. Particular attention is paid to: solving problems, increasing the practical component of tasks.

In individual work with students who have problems with academic performance, the following work is carried out:

✔ the group curator and head of department are notified (at the discretion of the head of department, the student's parents are informed directly about poor academic performance) if there is an accumulation of debts and unsatisfactory grades.

✔ According to the duty schedule of the faculty at the department, consultations are held, and, if necessary, work is also carried out with students in their free time.

The introduction of ICT into the content of the educational process implies the integration of various subject areas of economics with computer science, which leads to the informatization of students' consciousness and their understanding of the processes of informatization in modern society. In the modern methodological system of the university, new information technologies are appearing, and graduates are prepared to master new information technologies in their future work activities.

Innovative forms of work:
- media games (goal: to provide more visual information in a short period of time)
- electronic presentations
- media panoramas.
- MODLE platform

In the process of teaching, the faculty pays special attention to the following educational technologies: personally-oriented technologies in teaching the discipline and information and analytical support of the educational process and management of the quality of education of students and master's students.

1. Educational work carried out with students:
1. Conducting Quests, business ideas competitions, subject Olympiads;
2. Conducting visiting seminars at enterprises of various sectors of the ATU Gagauzia;
3. Activities of group curators, including:
a) Conducting scheduled curatorial hours;
b) Conducting thematic curatorial hours;
c) Conducting curatorial hours with the involvement of specialists from various agencies (insurance, law enforcement, medical)
4. Organizing students to participate in ceremonial events dedicated to social events and important dates held at the university throughout the year;
5. Organization of joint research work of 3rd year students with the teaching staff of the department;
6. Familiarization of students with the schedule of coursework (CW) in the disciplines of the department and conducting briefings on their writing and design during the year (heads of the CR);
7. Educational work during classes;
8. Generating current reports on academic performance and attendance throughout the year

In the 2024-2025 academic year, numerous open lectures were held within the framework of the Progress Center. All information is reflected on the university website.

The lesson plan, topics of practical work that are considered in seminars and laboratory classes, learning outcomes - specific competencies and blocks of competencies for each topic, assignments, assessment methods are provided in the curriculum. Courses and seminars are interactive, based on a constant dialogue between teachers and students, which stimulates students' thinking and creativity. Seminar activities are also based on the consolidation of theoretical knowledge, case studies, portfolios and projects.

Depending on the form of organization of educational activities, consultations with students are conducted flexibly. During academic classes, dialogues with students are organized using classical and non-traditional methods. During practical classes (seminars), consultations are practiced: individual with each student, with a group of students (in cases of joint activities).

The student-centred focus of teaching and learning methods is visible both at the level of developing the curriculum of the discipline and at the stage of implementing the teaching-learning-assessment triad. Students are informed about the content of the programme, involved in the formation of their educational programme by choosing subjects offered in the optional mode for the relevant specialization in the labour market, specific training in the conditions of internationalization and changes in the local professional context, etc. Consultations are held with students on the choice of education, while their views on the further implementation of the curriculum and curricula for subjects/modules are explored.

Current consultations of students in the performance of individual work are carried out outside working hours, at the time specified in the work schedule, and at another time convenient for the graduate. Particular attention during consultations with students is paid to independent research (reports, scientific articles, individual and group projects, essays, etc.), the performance of various tasks, and self-assessment of academic achievements.

At all stages of the educational process, students of the department can receive consultations organized by the faculty, according to the schedule approved by the department.

In order to continuously improve this process and ensure the effective use of ICT tools in the teaching-learning-assessment process, these aspects are included in the agenda of the responsible quality assurance bodies and are discussed at departmental, faculty council and senate meetings. All courses/modules in the curriculum are suitable for the use of interactive methods with the help of ICT, the main task of which is to orient the learning activity towards the student. The courses of the curriculum are posted and accessible to students on the Moodle platform.

3.3   *Practical Internships*

The practice provided for by the curriculum for the specialties of the Faculty of Economics, being a mandatory component of the professional training of a specialist, is aimed at the practical application of theoretical knowledge acquired by students within the framework of the curriculum.

During the training, the following types of practice are provided: introductory, industrial and licensing, professional.

During the internship, students become familiar with the basics of their future specialty and acquire primary skills for professional training. The internship is carried out in an economic entity of the country whose profile of activity is compatible with the profile of professional training. The internship is carried out on the basis of agreements concluded between KSU and economic entities.

The permanent bases of practice are: SRL "Mark Media", SA "Iugintertrans", SRL "Chiupon", SA "Tomai Vinex", SRL "Lider Com", IM "Vitapharm-Com" SRL, SRL "Master Plus", SA "Fincombanc" (branch in Comrat), SA "Vinuri de Comrat", SRL "Bayraktar Agro-Trans", SA "Iugintertrans", SRL "Ghekatex Group", SRL "Fabrica Oloi Pak", SRL "Nexovin", Scientific Research Center of Gagauzia, SRL "Doksancom", SRL "Gözellär Plus", SRL "Colorit Com",SRL "DolayTrans", SRL "GBA-Trans", SRL "Chiupon", SRL "Fabrika Oloi Pak", SRL "Moncomtex",UCCG «GAGAUZCOOP, SA "Tomai-Vinex", SA "Iugintertrans", SRL "Moncomtex",SA «Iugintertrans», Mobiasbanca-OTR Grup, SA FinComBank BC, BC «Moldova Agroindbank» SA, BC «Moldindconbank» SA, SRL «Timboi Grup», Gagauzia City Halls and Healthcare Centers, schools of ATU Gagauzia, "MARC-MEDIA" SRL, IM «VitaPharm», etc.

Introductory, industrial practice is carried out in the form of work organized by the student's supervisor from the university and enterprise/bank, aimed at familiarizing them with the specifics of professional work, including the performance of one-time and permanent assignments.

According to the requirements of the methodological guidelines for completing introductory and industrial practices, students conduct an analysis of the organizational management structure, provide a general description of the enterprise and complete an individual assignment.

The purpose of conducting introductory practice in the specialty is to consolidate, expand and deepen the theoretical knowledge obtained and acquire initial practical skills in solving specific problems. Students acquire skills in solving complex problems and master various types of future professional activity.

ByDuring the licensing practice, the practice supervisors, together with the student, develop a plan for completing assignments that is consistent with the approved plan for completing the licensing work.

Targetpractice in the specialty - to consolidate and deepen the theoretical knowledge acquired by students in the process of studying general professional and specialized disciplines, developing professional competencies and practical experience in the specialty, collecting factual material for performing licensing work in the future. This goal is achieved as a result of familiarization with the work of the enterprise, acquiring skills of professional and organizational activity in the workplace, participation in solving practical problems. Practice in the specialty of students is carried out at enterprises, institutions and organizations and is intended for them to acquire practical skills of working at the chosen enterprise in a position corresponding to the profile of the specialty.

The practice also solves a number of specific problems, such as: adaptation of the student to real working conditions in various institutions and organizations, gaining experience of working in work collectives, planning work in the organization, communication and interaction in the field of future professional activity.

The goals, objectives and content of all types of internships are reflected in the curriculum and methodological guide for internships, and correspond to the requirements of the curriculum for the specialties.

Curriculums and methodological guides for practice are developed and approved by the department, and then by the Faculty Council.

Students are sent for practical training based on the department's submission and the KSU order on the practical training and student distribution. Control over the practical training is assigned to the KSU educational department and the department.

The head of the practice (teacher of the department) bears personal responsibility. Monitoring of the practice is carried out regularly and includes: informing students about the goals of the practice and assessment criteria, involving students in self-assessment based on the criteria, providing feedback that helps students determine their further actions and ways of implementing them. The heads instruct students on the practice. The procedure for the practice, organization and conduct of the practice are defined in the Regulation on the practice of students of Comrat State University.

There were no violations of the supervisor's requirements by the students during their internships.

During the internship, students keep a daily "Diary of Internship" and complete tasks provided by the internship programs. Upon completion of all types of internship, students prepare a report reflecting the results of completing the assigned tasks.

The completed reports were submitted to the departments for review by the supervisor and for further defense. The defense of the practice reports was organized by a committee at the university.

Students and postgraduates can do their internships in various organizations (state, municipal, public, commercial and non-commercial). As a rule, the internship bases are specific enterprises of the ATU Gagauzia and the Republic of Moldova. When choosing the place for the internship, preference was given to enterprises with a clearly regulated and developed system of financial and economic activity and management.

According to the terms of the concluded contracts on internship, all students were assigned internship supervisors from enterprises. These were mainly highly qualified specialists, chief accountants, chief economists, heads of departments, who provided practical assistance to students in carrying out analysis and studying the functional activities of each department.

The company's internship supervisors provided each student with a reference. The references provided positive feedback on the students' theoretical preparedness and a description of the professional skills they had acquired. Before leaving for internship, the students were briefed. During the internship, the students' work at the internship sites was checked.

Information on internships by department is presented in Tables 3.1, 3.2, 3.3.

3.4 Evaluation of academic results

The teachers of the Faculty of Economics are actively involved in educational, methodological, research, organizational and educational activities.

The distribution of hours across semesters allows students to have time for individual preparation (writing term papers, tests, participation in research work).

During the study of disciplines, one or two assessments are provided, conducted in written form.

Examinations at the faculty for the 2024-2025 academic year were organized mainly in written form in the form of a ticket, the composition of the ticket mainly consists of two theoretical questions and one practical task or test.

The mechanism for calculating the final grade is $CO = (T+A)/2$

where: T is the current assessment;

A – certification;

AGR – average rating.

Total for full-time education = (Average grade * 0.6) + (Exam * 0.4)

Total for correspondence course = (Average grade * 0.5) + (Exam * 0.5)

When assessing students' knowledge, transparency of assessment is ensured; at the first lecture, students are introduced to the basic requirements for current and final assessment; each seminar ends with the announcement of grades for the lesson, and the topic of assessing examination papers is included in the curriculum and annotations for the disciplines.

At the Faculty of Economics, the organization and implementation State exams at the proper level. Exams started on time, according to the approved schedule, there were no disruptions.

The graduation departments carried out the necessary preliminary work on conducting state examinations (including review lectures), which ensured a sufficient level of preparation of students for passing the licensing examinations. State examinations were conducted using specially prepared examination tickets, the range of questions that met the requirements of the standard for taking an oral examination, reflected new scientific achievements and changes in legislation.

At the faculty, across departments, preliminary defense of master's and license theses was carried out, which helped to identify work performed at a low level, eliminate deficiencies and increase the level of defense.

During the period of work of the state commission from May 30 to June 15, 2024, there were no complaints or claims from students or faculty of the University.

The defense of diploma and master's theses showed that graduates are able to successfully use modern information technologies, methods of obtaining, processing and storing information.

Graduates understand the essence and social significance of their profession, know the main problems of work in a specific area of their activity and offer practical approaches to solving these problems.

4. Academic staff

      a) Student population (according to Anexa 4);

      b) Dynamics of the student contingent (according to Anexa 5);

      c) Evaluation of students (as per appendixAnexa 6, Anexa 7);

      d) Record of students who are orphans/with disabilities (according toAnexa 8);

      d) Record of students from Transnistria and the city of Bender (according toAnexa 9);

      e) Providing students with places in a hostel (according to the appendixAnexa 10);

5.2 Student government.

5.3 Extra-curricular activities;

During the 2024-2025 academic year, the group curator regularly held curatorial hours, organized visits to various thematic events, meetings with bank representatives, meetings with employers, which is confirmed by publications on the KSU website.

The teachers of the Department of Accounting and Finance organized the supervision of students' research papers for participation in the International Competition of Student Papers in January 2025.

In April 2025, the Department, in collaboration with the student research laboratory "Economist-Researcher", held the Quest "Across Financial Spaces", involving 12th grade students.

Participation of students in the event "XIII Regional Competitions for Innovative Cercetare Projects Regional Competitions for Innovative Cercetare Projects "Student Innovator"," organized by the Innovative Incubator of Comrat State University together with the partner - the Executive Committee of Gagauzia. The competition started in October 2024, when a group of proactive guys from ATU Gagauzia and entrepreneurs was recruited. As a result of the selection from among the proposed projects, 11 business plans of various focus areas were presented in the final of the competition. Peiu Vasilii (group IM-23) took part with the project "AI assistant (application) related to public services". The IM-23 group led by Velikova T.G. supported Peiu Vasilii. Vasilii performed well and took 3rd place (the prize was 3,000 lei). 2. Participation of students in the VI International Competition of Student Research Papers in Economics, November 11, 2024, organized by the Research Center "Progress" named after D.M. Parmakli at Comrat State University (KSU).(I sing Vasily gr. IM-23Kroitor Alexander and Marchuk Petr Gr. Im-22)

3. June 13, 2025. Vasily Peyu, a student of the IM-23 group, Department of Information Technology, Mathematics and Physics, took part in the event, which was dedicated to the launch of the EcoTech - IT solutions for a clean environment project, a national student competition dedicated to the promotion of digital innovations that impact the field of environmental protection.

The event was organized by the Ministry of Environment in partnership with the Academy of Economic Knowledge (ASEM) and with the direct participation of the ASEM IT4BA Innovation Incubator. The event featured teams and mentors from IT companies. The project was presented: goals, objectives, next steps. During the summer and early autumn, the selected teams will work on developing digital solutions. Mentors from leading IT companies (Endava, AROBS Software, Moonshot International, Est Computer, InfoEra, Software Mind, Trimetrica, Orange Systems and Dron Assistance) will provide the necessary support to the teams.

The final stage of the competition is scheduled for October. Teams will present their prototypes and innovative IT solutions. The best solutions will be awarded and promoted at the national level. The competition is intended to become a real catalyst for cooperation between education, environmental protection and technology.

Event details are available at the link:https://ase.md/inovatie-pentru-sustenabilitate-start-ecotech-competition-la-asem/?fbclid=IwY2xjawLDzxlleHRuA2FlbQIxMABicmlkETFBdENvaWp6N0VNVklYOG9aAR65Z25Ek4MaJxIf4cg3VMRXdc4lawK8ZJkrn3TmXcATUredvN63VXyerB1few_aem_9QcY_XvjKPG4_6K1yp_5WQ

4. Visit to the Comrat Art Gallery on March 25, 2025 (group IM-23 led by T.G. Velikova).

5. Participation of students of the ITMF department (group MI-24, IM-23, IM-22) in a meeting with the Turkish teacher Hasan ALTINBAŞ under the Erasmus + Academic Mobility Program with Kırşehir Ahi Evran University (Turkey) on 07.05.2025 together with Kovrikova R.N., Velikova T.G.; 08.05.2025 meeting with the Turkish teacher Hasan ALTINBAŞ with the head of the ITMF department Popil G.P. and students of the IM-22 group.

6. Two students from the IM-23 group (Mitul Elena and Babenko Viktor) took part in the Erasmus+ student mobility program at Kırşehir Ahi Evran University (Turkey) in the spring semester of the 2024-2025 academic year. The announcement was published on the KSU website for participation in the student mobility competition:https://kdu.md/en/item/4232-kirsehir-ahi-evran-university-turkiye-has-announced-a-call-for-erasmus-student-mobility-for-study-for-students-of-comrat-state-university

7. The teachers of the department (Popil G.P., Kyssa L.P., Sibova O.G., Lupashku S.I.) took part in the seminars on the Reflect project on April 24 and 25, 2025.In accordance with the implementation of the objectives of the international project "REFLECT Phase II - Quality Peer-to-Peer Education in Moldova" on April 24 and 25, the teachers of the project working group organized and held a workshop with teachers of Comrat State University who teach pedagogical disciplines and/or are the heads of pedagogical practices. Dr., conf. univ. Velikova T.G. is a member of the REFLECT project, she took part as the organizer of the event.
Link to the publication about the event:https://kdu.md/ru/nauka-i-mezhdunarodnye-svyazi/nauka-i-mezhdunarodnye-svyazi/proekty/tekushchie-proekty/proekt-reflect/novosti-proekta-reflect/item/7593-seminar-praktikum-po-proektu-reflect-v-komratskom-gosudarstvennom-universitete-ukreplenie-kultury-obratnoj-svyazi-v-obrazovatelnoj-sisteme

8. Dr., conf. univ. Kovrikova R.N. and Velikova T.G. took part in the seminar on 15.04.2025 (online) "IMPLEMENTATION OF STANDARD CALIFICATION DOMENIULES IN FORMING A PROFESSIONAL EDUCATION 011", organized by the State University of Moldova (USM).

9. Open lecture. 04/30/2025 Velikova Tatyana Gavrilovna, Doctor, Conf. univ. Department of "Information Technology, Mathematics and Physics" of the Faculty of Economics of Comrat State University held an open lecture on the topic "Examples of the practical use of artificial intelligence tools in education". The purpose of the lecture: to demonstrate examples of the practical use of artificial intelligence in education. The following examples were given: using ChatGPT and Copilot to generate texts, tools for generating presentations, logos, a website via b12.io, avatars in HeyGen, generating a resume in Canva via the integrated Job And Resume AI application, using Colab Research, Excel AI, etc.
The lecture was attended by teachers from all faculties, as well as students from the ITMF Department. The lecture was held at Tekwill Comrat. The participation format was hybrid. Online participants were offered the opportunity to connect via Zoom. Tekwill Comrat acted as a partner of the event.

10. Participation of students in the event "XIII Regional Competitions for Innovative Cercetare Projects "Student Innovator"", organized by the Innovative Incubator of Comrat State University together with the partner - the Executive Committee of Gagauzia. The competition started in October 2024, when a group of proactive guys from ATU Gagauzia and entrepreneurs was recruited. As a result of the selection from among the proposed projects, 11 business plans of various focus areas were presented in the final of the competition. Iovchev Pavel -MEN 23, Kara Ivan-ETU-23, Kavlak Tatiana -EUP-22, Kara Sergey-MEN-24, Stanchu Karina and Kapsamun Elvira -ETU-23, Dragan Tatiana, Bukur Alexander-ETU-23 participated and won prizes. 20. Project implementationTeaching staff of the department - "ENRICHER hubs" Designing Green Tourism Concepts Through Learning
On December 11, 2024, an online meeting took placehttps://kdu.md/ru/nauka-i-mezhdunarodnye-svyazi/nauka-i-mezhdunarodnye-svyazi/proekty/proekty-startovavshie-v-2024-godu/proectul-enricher-hubs/novosti-proekta-enricher/item/6407-prepodovateli-komratkogo-gosudarstvennogo-universiteta-uchavstvovali-v-rabochej-onlajn-vstreche-komandy-proekta-enricher-hubs
On November 13, two seminars were heldhttps://kdu.md/ru/nauka-i-mezhdunarodnye-svyazi/nauka-i-mezhdunarodnye-svyazi/proekty/proekty-startovavshie-v-2024-godu/proectul-enricher-hubs/novosti-proekta-enricher/item/6359-komanda-komratskogo-gosudarstvennogo-universiteta-provodit-podgotovku-k-tretemu-treningu-v-ramkakh-mezhdunarodnogo-proekta-enricher-hubs

5.4 Participation in mobility programs (Table 5.1)

5.5 Forms and methods of professional orientation of students. Employment of students.
Velikova T.G. took part in05.10.2024 ITCareer EXPO Chisinau, and also on 28.09.2024. TechWomen Conference Tekwill Comrat, which allowed students to talk about the speakers' experience in IT companies.

1. https://www.facebook.com/horosovatania/posts/pfbid02NA6QscpZ1u8tq66kJkEYey8nS7t4xQqgGAEsdJdy728GQmhdYpmt28mGsStyhoQjl
2. https://www.facebook.com/horosovatania/posts/pfbid028eHxV5647H2iWTkfyF7JacbfCU5KFgiGLiXm6NiWWzSqj3GpY8KTmW19RVZPXTZ7l

TechWomen Summit (Chisinau, October 11-12, 2024, Mitul Elena, group IM-23) and Velikova T.G. took part from the department.

On May 15, 2025, the Department of Information Technology, Mathematics and Physics of the Faculty of Economics held a round table "Prospects and Opportunities of the IT Profession". The round table was attended by students of the IM-22, IM-23 group of the Computer Science and Mathematics specialty and students of the MI-24 group of the Mathematics and Computer Science specialty. Students of the Pedagogical College named after M. Chakir were invited to the event with the assistance of univ. ass., master's, Sibova O.G.

The event was opened by the acting head of the department, univ. ass., master, Popil G.P. The acting dean of the Faculty of Economics, doctor, univ. conf. Todoricih L.P. made a welcoming speech.

The department has been holding a round table for the third year. This year, it was decided to invite students of the department as speakers who have interesting and practical experience that they can share:

- Career of a software developer. Vladimir Leichu, student of the MI-24 group, practicing IT employee;
- The path to video shooting. Denis Tanasy, student of the IM-23 group, practicing photographer-videographer;
- Path in video production. Experience, Cases and educational practice. Uzun Konstantin, student of group IM-23, practicing photographer-videographer;
- Presentation of IT product. Vasily Peyu, student of group IM-23, employee of IT company VG GLOBAL;
- Experience in the IT field. Kroytor Alexander, student of group IM-22, practicing IT specialist;
- Experience and projects in game design and optimization. Gaidarzhi Kirill, student of the IM-22 group, computer science teacher.

The faculty of the ITMF Department intends to continue the practice of holding this event, since such immersion helps students improve their understanding of what competencies need to be developed for a successful career in IT. This allows teachers to get feedback from students, see what students are doing, what they are interested in studying additionally, what projects students already have in their portfolio. This helps the department consider innovations for inclusion in the curriculum of the department, in the future, identify topics for licensing work that will interest students and which will have a practical component based on existing experience in the chosen direction, and also suggest topics for participation in scientific conferences. These events are also useful for identifying students for participation in competitions and hackathons in the future.

On April 23, 2025, as part of the "Open Day" at Comrat State University, a bright and eventful format was held - Business Experience Day, organized by teachers of the Department of Economics and students of EUP 22. The event brought together graduates of theoretical lyceums in Comrat, as well as guests from Avdarma, Kirsovo, Kongaz and other settlements of the ATU Gagauzia. Applicants became not just observers, but active participants - for one day they literally "tried on" the role of economics students.https://kdu.md/ru/university-structure/facultati/facultatea-economica/kafedra-ekonomiki/novosti-kaf-ekonomiki/item/7582-business-experience-day-v-kgu-den-kogda-abiturienty-stali-chastyu-komandy-budushchego

As part of IT Career Expo Comrat 2025, the Department of Economics held a master class on the topic "Influencer = businessman: the economy of influence in the digital world". More than 40 students took part - from lyceum students to first-year students of the specialties "Business and Management" and "Marketing and Logistics", as well as KSU graduates of previous years.https://kdu.md/ru/structure-of-university/facultati/facultatea-economica/kafedra-ekonomiki/novosti-kaf-ekonomiki/item/7838-master-class-kafedry-ekonomiki-komratskogo-gosudarstvennogo-univirsiteta-na-it-career-expo-comrat-2025

Participation of the department staff in the implementation of the projectUNICLAD "Improving the Monitoring of Graduates' Employability in Moldova", Project implementation period: 11.01.2023 – 31.10.2026

October 31, 2024 II information seminarhttps://kdu.md/ru/nauka-i-mezhdunarodnye-svyazi/nauka-i-mezhdunarodnye-svyazi/proekty/proekty-startovavshie-v-2024-godu/proekt-upgrade/novosti-proekta-upgrade/item/6084-ii-informatsionnyj-seminar-v-ramkakh-proekta-upgrade-enhancing-graduates-employability-tracking-in-moldova-proshel-v-komratskom-gosudarstvennom-universitete

6. Social partnership
−   forms of cooperation;

1. Cooperation with TekwillComrat (participation of students in events organized in TekwillComrat and in Tekwill Chisinau).

1.1. Completion of courses held at Tekwill Comrat.

Doctor, conf. univ. Velikova T.G. took courses in English, a student of group MI-24 (Oșcencova Liudmila) and a student of group IM-23 (Peiu Peiu Vasile) took part in the training. As confirmation, course participants received standard certificates: Certificat de absolvire Tatiana Velicova Pentru finalizarea cu success a cursului "English for IT"(nivel pre-intermediar, total 90 ore, dintre care 24 ore contact direct și 66 ore lucru individual), din cadru proiectului "Digital Literacy Program for Girls and Women", implementat de Asociația Națională a Companiilor în domeniul TIC (ATIC), cu suportul financiar al PNUD Moldova, în perioda octombrie-noiembrie 2024.

1.2. Informing teachers and students about events, participation and organization of events in cooperation with Tekwill).

•   Representatives of the teaching staff of the ITMF Department: Velikova T.G., Lupashku S.I., Sibova O.G. took part in the 3D Master Class at Tekwill Comrat on 16.02.2025.

•   On February 12, 2025, students of the ITMF Department and teachers of the department took part in the event - "One day with Veaceslav Kunev in Gagauzia". As part of this event, students and teachers of KSU had a unique opportunity to meet with the leading IT expert of the Republic of Moldova, Doctor of Computer Science, Professor of the Technical University of Moldova, entrepreneur and founder of many technological projects - Veaceslav Kunev. First, an

Open Lecture for students was held. During the lecture, Veaceslav Kunev spoke about the key technological trends of 2025, after which there was a meeting and presentation for KSU teachers.

Cooperation with TekwillComrat (participation of students and teachers of the Department of Economics in events organized in TekwillComrat and in Tekwill in Chisinau).

Cooperation with M.Chakir College.

On March 25, 2025, Kuraksina S.S., a lecturer at the Department of Economics and a doctor of the university, took part as a jury member in the Business Ideas Competition "Best Business Plan 2025" at the Mihail Chakir College in Comrat, this is the local stage of the traditional competition "Cel mai bun plan de afaceri. Ediția 2025". https://kdu.md/ru/structure-of-university/facultati/facultatea-economica/kafedra-ekonomiki/novosti-kaf-ekonomiki/item/7289-uchastie-prepodavatelya-kafedry-ekonomiki-komratskogo-gosudarstvennogo-universiteta-v-kachestve-chlena-zhyuri-v-konkurse-biznes-idej-v-kolledzhe-im-m-chakira

Cooperation with the State Educational Institution of Gagauzia (participation as a jury in competitions).

On April 12, 2025, the next stage of the Regional IT Olympiad on the course: "Entrepreneurship" among students of Gagauzia was held in Tekwill Comrat. The IT Olympiad was initiated by the Main Education Department of Gagauzia. Lecturer of the Department of Economics, Comrat State University Kuraksina S.S., PhD, conf. univ., took part in the Olympiad as a jury member.https://kdu.md/ru/structure-of-university/facultati/facultatea-economica/kafedra-ekonomiki/novosti-kaf-ekonomiki/item/7524-uchastie-prepodovatelya-komratskogo-gosudarstvennogo-universiteta-v-kachestve-chlena-zhyuri-v-regionalnoj-it-olimpiade-po-kursu-predprinimatelstvo

Cooperation with ARR ATU Gagauzia

Kuraksina S.S. November 21, 2024 took part in the work in the ARR ATU Gagauzia on SMART specialization issues.

Participation of Kuraksin S.S. in the work of the Regional Development Council of the ATU Gagauzia during the 2024-2025 academic year

http://www.adrgagauzia.md/slidepageview.php?l=ru&idc=619&t=/covet-regionalinogo-razvitiea/regionalinii-covet-po-razvitiiu-ato-gagauziea&

Cooperation with universities of the Republic of Moldova, participation of the department's teaching staff in projects, conferences, round tables and trainings.

2. Cooperation with the State Educational Institution of Gagauzia (participation as a jury in competitions).

1. The First Regional IT Olympiad among students of Gagauzia in the direction of "Web design and website development" 05.04.2025, Lupashku S.I. - jury member, in Tekwill Comrat,

2. Competition of scientific research projects of students of educational institutions of Gagauzia on the topic "Search. Research. Discoveries", direction "Information and communication technologies". 04.24.2025. Velikova T.G., Popil G.P. - jury members. Participants: Students of the ATU Gagauzia grades 8-12.

Regional Olympiad in Informatics Popil G.P., member of the jury.

3. Cooperation with gymnasiums and lyceums of the ATU Gagauzia (undergoing pedagogical internships for students).

4. Cooperation with the State Educational Institution of Gagauzia in organizing advanced training courses.

The department carried out proofreading of lessons on Module C in the 2024-2025 academic year for teachers:

Module C Teacher Training Courses (Limbi și literaturi (gagauză)) – November 2024

Module C Advanced Courses (Preschool Pedagogy – Nivel 5) – November 2024
Module C Teacher training courses (Limbi și literaturi (gagauză)) – March-April 2025
Module C Refresher Courses (Pre-School Treatment) – May 2025
The department offers courses on all modules for teachers:
Continuing education courses in the program 0114.1 Matematică (mathematics teachers) – from 06.02.2025 to 20.03.2025, 21 people.

Velikova T.G. Participation in the V International Pedagogical Forum in the ATU Gagauzia "Dynamic development of the education system in modern conditions: a stimulating educational environment", November 28-29, 2024, Comrat.

5. Cooperation with the College named after M.Chakir.
Velikova T.G. wrote reviews of workbooks
1. REVIEW of the notebook on Computer Science (for project work) authored by the teacher of computer science II did. st. PU College named after Mihail Chakir, Comrat Tanasoglo Olga, 08/27/2024
2. REVIEW of the notebook on Computer Science for the 1st year authored by the teacher of computer science II did. st. PU College named after Mihail Chakir, Comrat Tanasoglo Olga, 08/27/2024
3. REVIEW of the notebook on Computer Science for the 2nd year authored by the teacher of computer science II did. st. PU College named after Mihail Chakir, Comrat Tanasoglo Olga, 08/27/2024
4. REVIEW of the notebook on Computer Science for the 3rd year authored by the teacher of computer science II did. st. PU College named after Mihail Chakir, Comrat Tanasoglo Olga, 08/27/2024

7. Cooperation with universities of the Republic of Moldova
● Velikova T.G. Collaboration with Universitatea de Stat "BP Hasdeu", Facultatea de Economie, Inginerie și Științe Aplicate, Cahul as a commission member, June 9, 2025.
Membru comisiei de susținerea tezelor de master, domeniul de formare profesională 0111 Științe ale educației, Programul de studii: 0111 Tehnologii informaționale în instruire (profesionalizare, învățământ cu frecvență).
● On behalf of Vladimir Andrunachievici Institute of Mathematics and Computer Science participation in the Workshop dedicated to the work and achievements of Professor Yurii Rogozhin (1949-2014). November 22, 2024, Organized by Vladimir Andrunachievici Institute of Mathematics and computer science, Moldova State University. Chisinau, Republic of Moldova, and will be hybrid (online participation)
● Velikova T.G. participates in the REFLECT project with colleagues from partner universities.
● 6. Collaboration with professors from abroad.
➢ Velikova T.G. collaborates with colleagues from the Belarusian State Academy of Communications, for example, on October 31, 2024 (online) she took part in a conference,http://bsac.by/events/v-belorusskoi-gosudarstvennoi-akademii-svazi-nacala-rabotu-xxix-mezdunarodnaa-naucno; On May 13, 2025, she took part in the student conference https://bsac.by/events/pervyi-den-raboty-xxv-mezdunarodnoi-naucno-tehniceskoi-konferencii-studentov-magistrantov-i. Two articles were published jointly with Dmitry Naumov.
➢ Prof. Dr., AdrianAdăscăliței, University of Gheorghe Asachi, dinIași, Romania – the professor sends information on conferences, sends educational and methodological publications in electronic format, participated as a moderator of the Information Technology, Mathematics and Physics section together with Velikova T.G., dedicated to the 34th anniversary of KSU. At the moment, Mr. AdrianAdăscăliței is in the process of publishing a manual for teachers on artificial intelligence, which he promised to share after publication.

➤ Velikova T.G. actively participated in the submission of applications in July-August 2024, but unfortunately, none of the applications scored enough points for funding, although it was confirmed that the documents from the university were in full order and the submitted project was the very first on the list for submission.Preliminary results are published on the websitehttps://www.ancd.gov.md/ro/content/rezultatele-eligibilit%C4%83%C8%9Bii-proiectelor-bilaterale-moldo-turce-pentru-anii-2025%E2%80%932026.

This is primarily due to the fact that TUBITAK projects are written by partners from Turkey, it is not always possible to make a significant contribution to their idea, to rephrase something or write in scientific language, correctly in English, due to the fact that this is not our idea and we do not see it in full scale.

- Competition (ANCD and TUBITAK). Project topic: "Providing Micro Qualifications For Beyond Diploma Skills And Increasing Employability (MIQBEDS)", partner: Bolu Abant Izzet Baysal University. Project submission – August 13, 2024.

-(INTERREG VI-B) NEXT BLACK SEA BASIN Programme. Small Scale projects. Project topic: «Watchers: Understanding Environmental Changes in the Black Sea». Submission of the project together with partners from Bulgaria (Marusya Lyubcheva).

- UNDP in the Republic of Moldova Grant Competition EoI24/02958 "Programme to Expand Access of Women and Girls to Science, Technology, Engineering, Arts and Mathematics (STEAM) on the Left Bank of the Dniester", funded by Sweden and the United Kingdom and implemented by the United Nations Development Programme in the Republic of Moldova. Consortium Agreement dated 15.12.2024 between the organizations: Non-Commercial Partnership "Regional Development Support Committee "Sigma-Expert" (NP "Sigma-Expert"), Bender; Didact Vega SRL (DV), Chisinau; Comrat State University (KSU), Comrat

7. Cooperation with the ARR ATU Gagauzia
Velikova T.G. November 21, 2024 took part in the work in the ARR ATU Gagauzia on SMART specialization issues.

8. Cooperation with IT companies of the Republic of Moldova and the Region.
Assistance in posting information on the KSU website and in social networks on Deeptech GigaHack 2024. https://kdu.md/ro/item/5357-deeptech-gigahack-is-back-in-2024

9. IT representatives who are students of the ITMF Department took part in the Round Table on the topic: "Prospects and Opportunities of the IT Profession", May 15, 2025. Link to the publication on the KSU website with a photo: https://kdu.md/ru/structure-of-university/facultati/facultatea-economica/kafedra-informatsionnykh-tekhnologij-matematiki-i-fiziki/novosti-kafedry-itmf/item/7906-kafedra-itmf-komratskogo-gosudarstvennogo-universiteta-provela-kruglyj-stol-perspektivy-i-vozmozhnosti-it-professii

10. Cooperation with RENAM
RENAM Electronic Infrastructure – Support for Excellence in National Research and Education. Publication date: 13 October 2024 (RU, RO, ENG) https://kdu.md/ru/item/5838-elektronnaya-infrastruktura-renam-podderzhka-peredovogo-opyta-v-natsionalnykh-issledovaniyakh-i-obrazovanii

‒ partners (number of agreements, domain, etc.).
Assistance in organizing the assembly of collections

- ‒ Conferința internatională științifico-practică în onoarea a 34-a aniversării a Universității de Stat Comrat.
- ‒ ‒ Volume I. Economic Sciences. Agriculture and Processing Industry. Information Technology, Mathematics and Physics. Law and Political Sciences.
- ‒ ‒ Volume II. Psychological and pedagogical sciences.
- ‒ Volume III. Philology. History and Philosophy. Culture and Art.
- ‒ **Progress conference collection**c - Popil G.P.

- 11. Teachers work on career guidance. They visited educational institutions according to the schedule in educational institutions of the ATO - Gagauzia. Students of the MI-24 group took part in the campaign "Study in Moldova". Linkhttps://kdu.md/ru/item/7349-komratskij-gosudarstvennyj-universitet-prinyal-uchastie-v-kampanii-uchis-v-moldove
- 12. Moodle platform – consulting teachers and students in September on registration, restoring access, granting rights to the creator of courses.

7. Information on the implementation of programs and national strategies

The National Development Strategy "Moldova 2030", updated in 2022 under the name "European Moldova 2030", defines the country's priorities in the economy, infrastructure, education, digitalization and ecology. The document is based on the Sustainable Development Goals and includes reforms aimed at creating an inclusive and competitive economy, improving the quality of life and developing human capital.

The Faculty of Economics of Comrat State University, including its departments, is actively involved in the implementation of these priorities. European educational standards are being implemented here, including the Bologna system and the credit model of education. The faculty has developed strategic plans for 2022–2027 and is actively involved in international projects and conferences, as well as implementing national and local programs — from European integration to interethnic and business-oriented initiatives.

The faculty is also integrated into the EU strategy "Education 2030", and digital transformation is implemented in accordance with the national strategy Digital Transformation Strategy 2023-2030, approved in September 2023, which is aimed at the complete digitalization of public services and the development of the ICT sector. In addition, within the framework of the climate agenda, projects in the field of renewable energy are being implemented - wind and solar power plants, as well as energy-saving technologies.

Thus, through educational, scientific and project activities, the faculty contributes to the implementation of the country's strategic priorities outlined in "Moldova-2030".

Conclusions

The conducted analysis of the functioning of the Faculty of Economics for the 2024-2025 academic year shows that all processes within the educational process are being implemented. The declared self-assessment reports were prepared for all declared specialties of the faculty.

The Faculty of Economics ensures the quality of the educational process in accordance with the requirements and expectations of various consumer groups: the state, employers, and students. The Faculty of Economics ensures its competitiveness, develops a quality management system in accordance with the international standard. In order to ensure the quality of the implementation of educational programs and the educational process as a whole, the Faculty of Economics conducts an external audit procedure by the Dean of the Faculty and the Quality Council. In order to ensure the development and activation of scientific activity processes, the Faculty of Economics has a Science Council.

In order to effectively ensure the quality of education at the University, it is necessary to:
- regularly conduct training seminars and discussions with department staff, including quality representatives, on issues of functioning and improvement of the university's education quality management system.
- expand the use of guest lectures, seminars, workshops, and tests in the curriculum for potential employers and professional practitioners.
  - *difficulties at work;*
  1The difficulties are caused by outdated technology and the lack of a licensed version of the 1C - accounting program.

2. Due to a certain number of students who are employed due to financial problems in the family, student attendance is one of the big problems and it has proven quite difficult to regulate this process.

3. The limit set for refilling printer cartridges, as well as for issuing paper to the department, is completely inconsistent with the normal provision of the educational process.

4. Lack of a single KSU database.

proposed solutions (indicating levels of implementation/solution).

1. Find funds for the university for printers, a laboratory assistant's computer, and the purchase of the 1C program - accounting (Administration)

2. Pay more attention to students from the category of those who are unable to attend full-time and set an additional retake schedule for them (Departments, Faculty)

3. Review the limits on paper issuance and cartridge refilling (Administration)

4. Create a single database.

8. Information on specific results achieved in the current academic year

The Faculty of Economics has been accredited for 5 years in economic specialties (license). The Faculty of Economics dynamically responds, constantly updates and implements innovative educational technologies, forms and methods based on a competence-oriented approach to professional training of specialists.

The areas of work are: development of practical skills of students, organization of internships, invitation of leading specialists in this field;

-organization of mutually beneficial cooperation with potential employers;

- creation of permanent working groups at the department that monitor and improve individual educational units;

- creation and development of the department's website, posting educational and methodological materials on it.

Scientists of the faculty conduct active research work in the scientific direction of the department. The Progress research center operates under the direction of Professor Dudoglo T.D. The student laboratory "Economist researcher", under the direction of Kyurkchu V.I., the Innocenter under the direction of the head of the department Kuraksina S.S. The contribution of the members of the centers to the innovative development of the ATU Gagauzia is highly appreciated at various levels and has received public recognition.

The faculty's teaching staff carried out work on developing and coordinating programs and strategies for the region.

The team members closely cooperate with foreign scientific and educational institutions. The research is united by a common scientific methodology aimed at the formation of economic policy.

The faculty team takes part in regional, national, international programs and projects, as well as in events held by KSU.

The faculty has a positive reputation at the level of the University and the region, and develops interaction with professional organizations in the field of economic and management activities (consulting companies; educational organizations, manufacturing companies).

The Faculty of Economics successfully conducted courses for continuous education of teaching staff – teachers of mathematics and computer science.

The teachers of the Faculty of Economics have published various manuals.

Students on the Moodle platform evaluate the course and provide recommendations, which has allowed us to identify technical and organizational issues.

Lecturers from the ITMF Department provide consultations to the faculty of KSU on working on the Moodle platform.

The ITMF Department successfully conducted courses for continuous education of teaching staff – teachers of mathematics and computer science.

The teaching staff of the departments updated the curriculum and added FIȘA UNITĂȚII DE CURS to the curriculum.

The teachers participated in exhibitions held at the national and regional levels.

The scientists of the department conduct active research work in the scientific direction of the department. The scientific research center Progress operates under the leadership of Professor Dudoglo T.D. and a scientific student laboratory "Economist-researcher" was created under the leadership of Kyurkchu V.I.

The department's teaching staff carried out work on developing and coordinating programs, regulations and strategies for the university and the region.

The team members closely cooperate with foreign scientific and educational institutions. The research is united by a common scientific methodology aimed at the formation of economic policy.

The team takes part in regional, national, international programs and projects, as well as in events held by KSU.

The teachers published various manuals.

Students on the Moodle platform evaluate the course and provide recommendations, which has allowed us to identify technical and organizational issues.

Teachers constantly improve their qualifications, engage in self-education by attending courses, trainings, webinars, and participate in mobility programs.

Acting Dean of the Faculty of Economics Todorici L.P.
