“Mumbo Jumbo” proctoring – online supervised exams under discussion

The private, state-recognized Fachhochschule des Mittelstands FHM (University of Applied Sciences) and Proctorio GmbH cordially invite you to the hybrid conference entitled **“Mumbo Jumbo proctoring – online supervised exams under discussion.”**

The hybrid conference is a final accord of the Erasmus+ project “Online Proctoring Manager - Further education program for supporting digital transformation at Higher Education Institutions” (short, PROWIDE). The PROWIDE project seeks to enhance the quality of online exams at Higher Education Institutions (HEIs) through creation of formal and non-formal training provisions aiming at qualifying a new type of professionals called Online Proctoring Manager.

The project partnership is composed of five partner institutions, which are:

- Fachhochschule des Mittelstands (Bielefeld, Germany),
- Anadolu University (Eskisehir, Türkiye),
- Proctorio GmbH (Unterfoehring, Germany),
- Università Telematica Internazionale – UNINETTUNO (Rome, Italy),
- Liepaja University (Liepaja, Latvia).

What is Online Proctoring?

Online Proctoring is part of online assessment, which allows for the remote supervision of exams with the aid of a special online proctoring software. Online Proctoring therefore gives students the opportunity to take exams from anywhere and anytime and significantly contributes to improving the academic integrity.

How to foster Online Proctoring?

So far, Online Proctoring is not widely used at Europe’s HEIs due to different reasons, such as data protection issues, compatibility with educational law, lack of awareness among internal HEI stakeholders. PROWIDE solution is: HEIs need professionals, so called Online Proctoring Manager, responsible for the development, introduction and supervision of online proctored exams. Thus, PROWIDE partners elaborated and tested a qualification profile and training program Online Proctoring Manager, which is ready for further adoption.

During the final PROWIDE conference, the key project outcomes, challenges and lessons learned will be presented. We will be talking about:

- What are the benefits of Online Proctoring for education?
- How to ensure the quality of online exams?
- How to facilitate a wider use of Online Proctoring?
- How to become Online Proctoring Manager?

We are keen to share with you our experiences and encourage you to give a boost to online exams at your institutions!

Who is addressed by this event?

The conference is recommended to teachers, students, representatives of IT departments and examination offices, managerial staff at higher education institutions who are interested in innovating examination policies.

We are very much looking forward to seeing you on JUNE 28, 2023!

PROGRAM OF THE EVENT

- 09:00** Registration and refreshments
