RESOLUTION

of the I International Scientific and Practical Conference

named after Professor Dmitri Parmacli

“Modern Challenges and Prospects in Economics”

Comrat, April 7, 2025

On April 7, 2025, Comrat State University hosted the I International Scientific and Practical Conference named after Professor Dmitrii Mikhailovich Parmacli “Modern Challenges and Prospects in Economics,” organized by the Research Center “Progress” named after Professor Dmitri Parmacli at the Faculty of Economics of Comrat State University.

The conference brought together representatives of scientific and educational institutions from the Republic of Moldova, the Republic of Belarus, the Russian Federation, Ukraine, the Kyrgyz Republic, and Turkey. Among the participants were scientists with international and national recognition, lecturers, researchers, and practitioners representing various branches of economic science and related disciplines.

The event became an important platform for international scientific communication, aimed at exchanging experiences, presenting the results of current research, and discussing pressing issues facing global and national economies in the context of dynamic socio-economic transformations and digitalization.

The main areas of the conference included six sections:

- ❖ Economics and Management: Modern Challenges and Prospects;
- ❖ Agricultural and Agro-industrial Economics: Trends and Prospects;
- ❖ Modern Trends in Marketing and Logistics;
- ❖ Accounting, Analysis, and Auditing;
- ❖ Finance, Banking System, and Taxation;
- ❖ Information Technologies and Digitalization of Economy and Business.

The reports presented by the participants were characterized by a high level of theoretical depth, analytical rigor, and practical relevance. They reflected current problems of modern economic development, innovative approaches to management, improvement of financial mechanisms, development of human capital, and digital transformation of economic processes.

Following the discussions, the participants emphasized:

- the necessity of active international scientific cooperation to develop joint solutions for overcoming modern economic challenges;
- the importance of integrating science, education, and practice to enhance the efficiency of socio-economic processes;
- the relevance of developing digital competencies and implementing artificial intelligence in economic research and business process management;
- the promising nature of introducing innovative approaches to financial analysis, risk management, and tax regulation;
- the need to strengthen the institutional base of the Research Center “Progress” named after Professor Dmitri Parmacli as a platform for international scientific cooperation.

RESOLVED:

1. To continue holding the International Scientific and Practical Conference named after Professor Dmitri Parmacli annually in Comrat, establishing it as a permanent international scientific forum.
2. To support the activities of the Research Center “Progress” named after Dmitri Parmacli as a center for scientific communication and coordination of joint research in the fields of economics, finance, and management.
3. To recommend the inclusion of the best conference papers in publications indexed by international databases, as well as the use of their results in educational programs in economics at universities of the Republic of Moldova.
4. To consider it appropriate to develop scientific partnerships between universities, research institutes, and public authorities for the practical implementation of scientific developments in regional and national economic development.
5. To recommend the annual publication of conference proceedings with an international DOI index, open access availability, and subsequent integration into international scientific databases.
6. To express gratitude to Comrat State University, the Faculty of Economics, and the Research Center “Progress” named after Professor Dmitri Parmacli for the high level of conference organization and their significant contribution to the development of economic science and international scientific cooperation.
